

Lost Whiskey Engine

Truckee, CA.

From left, Mick Melvin, Ellen Flanagan, Sean McAlindin, Conor McAlindin and Peter Anderson.

Sean and Conor first met Mick at an impromptu Craig's List jam in Glenshire in 2011, but it wasn't until Sean returned from a couple years in the Oregon desert that the engine truly left the station. Our fine steed has crashed and burned to be sure, and there have had to be some repairs along the way. All the while this old engine just keeps on rollin' down the line...and the pasture's looking mighty fine these days.
